World Trade Center of California Endorsement

California Reinvestment for Japan

Greetings my name is Dion Dwyer,

I am the Executive Director of the Northern California World Trade Center. This is a document to confirm and endorse the movement of Reinvestment for Japan from California to Japans economy.

The Northern California World Trade Center firmly supports the California reinvestment strategy for Japan. We understand vitally how economies need to support one another in order to strengthen both regions.

This is also a letter to confirm that the World Trade Center of Northern California fully supports the business model of reinvestment for Japan constructed by Mr. Dornford Walker. Mr. Walker has an extensive background as a Trade Specialist for the state of California and currently serves as President of the I.R.D.I. Business Group.

Mr. Walker having developed the reinvestment strategy is also the principle director in this endeavor to strengthen economic ties between California and Japan.

It is our greatest hope that we can create economic prosperity and strengthen our countries relations through our reinvestment strategy for Japan.

We hope that Japan will also equally support efforts to bring about shared economic prosperity for both California and Japan.

Regards,

Dion Dwyer
Executive Director
